Humane Beings

A Program for Schools

Kinder to Year12

Dogs' Homes of Tasmania

"There is a significant, positive relationship between childhood involvement with pets and adult empathy for other human beings."

Rationale

Children who are taught to care for animals are learning about responsibility, patience, respect and caring.

These skills not only help in their relationship with their pets, but also in building successful relationships with people in their adult lives.

Key Messages for Students

It is important to be responsible and provide care to those who need it. This includes animals.

Being responsible also means caring for the community.

There are laws to keep dogs and people safe in the community.

Dogs have needs and feelings similar to our own.

A dog is like a best friend because they are fun to have around.

In return, we can be a dog's best friend by keeping them safe, happy and healthy.
